Scrum Meeting Report

Date: June 29, 2023
Time: 7:05PM – 7:20PM
Location: Birkbeck Room MAL 403

Attendees:
Emeka Udeze (Scrum Master)
Adebowale Banjo (Development Team)
Ravee Athapattu Hunkiri (Development Team)

Agenda:

1. Daily updates from each team member
2. Sprint progress
3. Action Items
4. Any other business

Updates since the last standup:

- All codes and documentations for Phase 1 committed to Github and Codio.
- Ravee - Implemented the 'book' API endpoint for booking a taxi by sending a POST request with pickup and destination coordinates, returning the output in JSON format, and an empty response when no car is booked.

Sprint progress: API Endpoint configuration using the Phase 1 Frontend

- Ravee - Currently working on booking the 'nearest available car', 'moving all booked cars by 1 distance unit' and returning their 'updated positions'.
- Adebowale – Developing the functionality for error handling to enhance the user experience.
- Emeka - Developing the functionality to reset all cars to (0, 0) and unbook them using the 'reset' API endpoint.

Upcoming tasks
- Testing the API endpoints with Postman, database connection, frontend and efficient car assignment

Next Meeting:

Sprint Retrospective Meeting on July 4, 2023, Same place, same time.
